

With the high production capability of our LT70 sawmill, the fairest way to charge is by the hour vs. board ft. Please check out our cost comparison guide on our website, ss2sawmill.com, to see how our mill provides more value than lower priced hobby mills.

We charge a minimum fee based on distance traveled from our location on Red Baron Drive in Rhome, Texas. The hourly rate is based on MACHINE hours so you do not spend money when a blade need changed or during a lunch break. The only exception is extraneous work such as searching for or extracting metal from a saw log.

After Minimum Saw Time is achieved mobile sawing rate is \$150/hour.

***Rates include travel, set up, fuel, blades not damaged by metal in the wood, experienced sawyer. Customer must provide labor for offloading wood and equipment if saw logs must be moved around the site.*

Distance	Min. Saw Time	Pricing
1 - 35	2 hours	\$400
36 - 70	3 hours	\$575
71 - 105	4 hours	\$700
106 - 140	5 hours	\$850
Over 141	Negotiable	Negotiable
